## FACES OF KARACHI EBOOKS 2019

Author: Maham Malik

Realese Date: Expected @@expectedReleaseDate@@

This project consists of a series of portraits of the working class shot in the streets of central Karachi, which is the largest city of Pakistan that holds a wide mix of people from different parts of the country. It is to give an insight of Karachiites in a deep and meaningful way; images of people that reveal the true universality of the depths of human emotion. The content, messages and expressions are deep, meaningful and can be interpreted differently by viewers; the idea is to show the likeness, personality, and the mood of the subject and this fluctuates and differs from subject to subject as they have the ultimate control over what they want to show the camera. I want the viewer of these photographs to feel a connection between themselves and the photographs and understand the conveyed emotions.
