The circumstances under which Peter the Great came to the throne form a very remarkable—indeed, in some respects, quite a romantic story. The name of his father, who reigned as Emperor of Russia from 1645 to 1676, was Alexis Michaelowitz. In the course of his life, this Emperor Alexis was twice married. By his first wife he had two sons, whose names were Theodore and John, and four daughters. The names of the daughters were Sophia, Catharine, Mary, and Sediassa. By his second wife he had two children—a son and a daughter. The name of the son was Peter, and that of the daughter was Natalia Alexowna. Of all these children, those with whom we have most to do are the two oldest sons, Theodore and John, and the oldest daughter, Sophia, by the first wife; and Peter, the oldest son by the second wife, the hero of this history. The name of the second wife, Peteru0026#39;s mother, was Natalia. Of course, Theodore, at his fatheru0026#39;s death, was heir to the throne. Next to him in the line of succession came John; and next after John came Peter, the son of the second wife; for, by the ancient laws and usages of the Muscovite monarchy, the daughters were excluded from the succession altogether. Indeed, not only were the daughters excluded themselves from the throne, but special precautions were taken to prevent their ever having sons to lay claim to it. They were forbidden to marry, and, in order to make it impossible that they should ever violate this rule, they were all placed in convents before they arrived at a marriageable age, and were compelled to pass their lives there in seclusion. Of course, the convents where these princesses were lodged were very richly and splendidly endowed, and the royal inmates enjoyed within the walls every comfort and luxury which could possibly be procured for them in such retreats, and which could tend in any measure to reconcile them to being forever debarred from all the pleasures of love and the sweets of domestic life...
