PHOTO GRAPHICS II EBOOKS 2019

Author: John Ellingson

Realese Date: Expected @@expectedReleaseDate@@

This is a short digital photo essay of floral images captured at the United States Botanic Garden. They were inspired by the floral paintings of Georgia O'Keefe. I'd like to say they remotely resemble her work, but alas they fall far short. However, as an exercise in digital graphics they were a lot of fun and I hope they may stimulate others to take a run at exploring the same ground. They were created with Nikon photo equipment and Apple computers and Adobe software. All of the images are the original work of the author and all were produced in 2013.
