## PRESENTATION PIECES IN THE MUSEUM OF HISTORY AND TECHNOLOGY EBOOKS 2019

The Smithsonian Institution's Museum of History and Technology has what may well be the most varied and extensive collection of such presentation pieces ever to be preserved and exhibited in one place. The collection contains the work of some of the more prominent American silversmiths, but most of the pieces are by lesser known makers and are in the collection because of historic interest rather than artistic merit. The chief usefulness of the collection lies in its value as a social document and in the mute evidence it gives of the taste and craftsmanship of the periods covered.
